

THE VALLEY FLYER

SAN FERNANDO VALLEY FLYERS NEWSLETTER CLUB 152

LABOR DAY

Honoring the people who keep our communities moving.

A MESSAGE FROM OUR PRESIDENT

We are heading to the end of the dog days of summer. Hopefully, the high temps will be soon past. Just last week, our plans to repair the runway were cancelled. We will need to try and re-schedule in September or early October. Also, the Recs. and Parks are now closing the airfield on Monday mornings for maintenance.

Coming up on September 12th is the fall Try and Fly. We are looking for members to help with the flight simulators, and to give a talk about the basics of how planes fly and how RC airplanes operate. If you would like to help out with this, contact Tony Aguila at treasurer@valleyflyers.com. If you are interested in helping with buddy box flights, contact Federico Arzilli at trainer@valleyflyers.com.

September 13 is the next swap meet. We have a large collection of items from the estate of Gilbert Gfelner who passed away earlier this year. The items were given to Glen Roe who has generously donated them to the club to be sold to help support the club.

The fall LA Jets is scheduled for September 26th. Stay tune for details.

A Letter from your Editor

I apologize for the newsletter being so late. I was driving across country with my daughter, Danielle. She just got accepted into the London Academy of Music & Dramatic Arts, (LAMDA).

Which started on the 6th. I am now living in New Jersey, and am doing the newsletter. hopefully they will be on time and I can make you all happy with what I am doing. Everyone please be careful in their travels especially the RC travel, safety comes first. May everyone have a Happy Labor Day.Keep Flying!

Weather Cancellation Policy

San Fernando Valley RC Flyers – Apollo XI Model Airfield

Purpose

This policy establishes clear guidelines for cancelling or postponing San Fernando Valley RC Flyers events due to inclement weather or unsafe field conditions. The goal is to ensure the safety of participants, protect equipment and property, and provide clear, timely communication.

1. Safety First

The safety of pilots, volunteers, and spectators is our highest priority. Any weather conditions posing a significant risk to health, safety, or equipment will result in delay, suspension, or cancellation of the event.

2. Weather Monitoring and Notifications

The Contest Director/Event Manager will begin monitoring weather forecasts at least 3 days prior to the event using trusted sources such as:

- National Weather Service (weather.gov)
- Local radar and forecasts
- AirNow.gov (for air quality)
- NOTAMs: <https://www.aopa.org/destinations/airports/KVNY/details#notam>
- Updates will be reviewed daily leading up to the event, and more frequently as the event approaches.

3. Cancellation Thresholds

Events may be cancelled or delayed under the following conditions:

Condition Rain Wind Lightning Heat Index Air Quality Field Conditions NOTAMs Recs
and Parks Activities

4. Decision Timeline

Threshold for Cancellation or Delay

Forecasted sustained rainfall during the event window, Sustained winds > 25 mph or gusts > 30 mph,

Lightning within 10 miles of the field (wait 30 mins after last strike), 105°F or above, when Heat Warning is issued AQI above 150 (Unhealthy) Floods, Fires, and other unsafe conditions FAA notification of closed airspace, Closure notices from the Dept of Recs. & Parks

hours before the event if there is weather uncertainty.

later than 6 hours before the event start time, unless sudden a same-day cancellation.

- Initial advisory: Sent 48
- Final decision: Made no weather changes require
- For on-site changes (e.g., lightning or wind surges), the event may be paused or terminated at any time.

5. Communication Plan

All cancellations or schedule changes will be communicated through: - Club email list

- Official website: [Insert URL] - Social media (Facebook, Instagram)

A notice will include the reason for cancellation, time of update, and any reschedule plans. For large events, a phone hotline may be activated or monitored.

6. Rescheduling & Refunds

- If an event is cancelled, organizers will attempt to reschedule when possible.
- Prepaid entry fees may be refunded or rolled over to the rescheduled event at the discretion of the Event Committee.
- Vendors or sponsors will be contacted individually to coordinate alternative arrangements.

7. On-Site Contingency Plans

If weather deteriorates during an event:

- A temporary suspension may be enacted (e.g., for nearby lightning).
- Participants will be directed to safe shelter locations, such as under shade structures or in vehicles.
- In case of full cancellation, a safe and orderly shutdown procedure will be followed.

8. Authority

The Contest Director/Event Manager, with consultation from club officers and/or safety officers, holds the authority to cancel or suspend an event. Their decisions are final.

Field Manager

Duties

Monitors the physical condition of the field and reports to the Board of Directors and the members. Maintains an open dialouge with the City of Los Angeles, Department of Recreation and Parks. Recieves estimates for any field improvement projects. Responsible for the construction and maintenance activities at the field. When possible make reports for the newsletter.

Secretary

Will keep the meeting minutes in the books provided for that purpose and will be custodian of corporate documents. Keep a register of the addressess of the members. Which the membership director will supply. In general, all the duties that are assigned by the president or the board. Give meeting minutes and any reports to the newsletter editor.

PUBLIC RELATIONS DIRECTOR

Public Relations officer duties are to keep log of t-shirts, trophies, etc. They can get funds for new items. Maintain video library. Contact newspapers and other media advertising of events. Update AMA of events. When possible make article for newsletter.

AS SOON AS POSSIBLE.

NEWSLETTER EDITOR

The editor will be in charge of the monthly newsletter, which shall be issued to the members. The editor also helps in anyway they can, at events they take pictures for the newsletter, get meeting minutes for the newsletter, from the Secretary. Post all donations and events.

HOSPITALITY CHAIR

Provides:

- Refreshments and snacks for the events and meetings;***
- Coordinates concession stands at club fiels events***

Monies for purchases shall be requested from the Treasurer. Profits from the events shall be remitted to the Treasurer. When possible, make reports for the newsletter.

TECHNICAL DIRECTOR

This positio0n will provide support, upon request, to the field manager and Electric Director. Maintains the charging stations at Apollo XI & Glendale fields along with the radio links that keep them reporting weather and voltage conditions to the internet and website. Assist in the maintenance of the camera security systems at both fields. Report anything that might be interesting to the Newsletter Editor, PLEASE!

WELCOME

to our new

Digital Marketing Director

Hi All!! My name is Brian and I am happy to join the board of the Valley Flyers. I've been a professional video editor in marketing for over 20 years, working on everything from TV commercials, Netflix shows to social media campaigns. I recently began a photography and drone videography business. I am excited to bring my experience to the club and to help bring more awareness and community engagement. I have been flying for about three years. I also enjoy RC cars and boats. I have a wife and a teenage son, I am on my condos HOA Board, and I am an avid reader.

Please come say hi if you see me at the field

CLUB CLEAN UP DAYS

Make a positive impact! Volunteer for Clean-Up Day and keep our field beautiful. Bring your gloves and we provide the tools. Come for 1 hour or stay the whole time.

The Third Friday of Each Month
8 am to 11 am

Feb. 20, Mar. 20, Apr. 17, May 15,
Jun. 19, Jul. 17, Aug. 21, Sep. 18,
Oct. 23, Nov. 20, Dec. 18

Now Open!

Federico Arzilli our trainer, he can be reached by text at 818-395-6331

To All Students:
“Before your flight, take a deep breath and focus. Try to forget about your emotions. Flying is not about emotions. Flying is about control. Predict and think before executing the next maneuver. You are in control.”

Let Training Begin!

FREDERICO

Training

Federico's

Helper

AS AN AMA MEMBER I AGREE:

- I will not fly a model aircraft in a careless or reckless manner.
- I will not interfere with and will yield the right of way to all human-carrying aircraft using AMA's See and Avoid Guidance and a spotter when appropriate.
- I will not operate any model aircraft while I am under the influence of alcohol or any drug that could adversely affect my ability to safely control the model.
- I will avoid flying directly over unprotected people, moving vehicles, and occupied structures.
- I will fly Free Flight (FF) and Control Line (CL) models in compliance with AMA's safety programming.
- I will maintain visual contact of an RC model aircraft without enhancement other than corrective lenses prescribed to me. When using an advanced flight system, such as an autopilot, or flying First-Person View (FPV), I will comply with AMA's Advanced Flight System programming.
- I will only fly models weighing more than 55 pounds, including fuel, if certified through AMA's Large Model Airplane Program.
- I will only fly a turbine-powered model aircraft in compliance with AMA's Gas Turbine Program.
- I will not fly a powered model outdoors closer than 25 feet to any individual, except for myself or my helper(s) located at the flightline, unless I am taking off and landing, or as otherwise provided in AMA's Competition Regulation.
- I will use an established safety line to separate all model aircraft operations from spectators and bystanders.

Members 221

August Membership Stats

There are currently 220 active club members. Through July 25th. we had 10 first time memberships started. Membership enrollment has been increasing due to the events we have been having.

Welcome First Time Members

Michael Buckley	Douglas Durnbaugh	Allistar Jin Yau
Brian. Miller	Gordon Chapman	Arshil Hartoonian
David Franklin	Aton Perevalov	Connor Greenslit

2026 Membership Cards

All members who renewed online through JAugust 28, 2026 have been processed and cards have been shipped
If you have applied in 2026 and not received your card please email membership@valleyflyers.com or text Celeste at 818-300-3098. You may have a pending issue with AMA membership.

Membership Price Increase

Due to the rising costs of operating the club, it was agreed by the Board of Directors to increase the membership fee by \$10 to \$45 for the Apollo XI field and to \$75 for the Apollo XI + Glendale Field. Youth prices will be \$10 for Apollo XI field and \$35 for Apollo XI +Glendale Field

NEW Glendale Members

If you have enrolled or renewed for use of the Glendale field, you will be receiving an email from EnterpriseMasterVault.com with the code to the lockbox at the entrance of the field. Your code is good until either your AMA expires or the end of our current flying season which is 12/31/2026. A membership card with a "G" code will be sent to you in the mail. It is good to have your card with you when you go to fly, but it is not required.

Enrollment Activities

If you would like to volunteer to help grow membership or you know people who are interested please contact me at membership@valleyflyers.com or direct them to sign up online at <https://valleyflyers.com/membership-apollo-xi.html>. We need people who can assist with photography or videoing events for social media.

Events

We have programmed many fun events for this year for those of you who may be new to flying, have a competitive streak, or just like to hang with other avid RC flyers and builders. Only active members who register for the event will be able to fly that day, they usually run from 9 am to 4 pm.

You can check out the upcoming events calendar at this link: <https://www.valleyflyers.com/menu1/column1/listing2>

New Flyers Needing Instruction

If you would like to learn to fly, please contact our Training Director, Federico Arzilli by texting him at: 818-395-6331.

He will be at the Apollo XI Field every other Sunday of each month from 10 am to 2 pm. You will find him near the containers. Please text him prior to reserve your space. He will organize group flying lessons with you and other new flyers.

Come practice on our flight simulator and check out our training planes during this time.

HAPPY BIRTHDAY

September Birthdays

Ted Bough	Mel Roberts
Alderman Declan	Alexander
Ashner Gochman	Paul Hession
Joesph Narans	Leonard Polan
Scott Ramos	Michael Sitts
Francisco Toro	Styephen Veres
Ken Wright	

Hope to meet you all on the field soon. 😊

SAFETY MESSAGE

Pilots that fly in the Park Flyer area, you need to stay within the cone areas. I know that there is an over lap in the North corner, so watch out for the planes flying on the main runway area. Watch all around. Stay out of the golf course area also, this is a cause for major complaints. Field etiquette and safety guidelines need to be followed. Fly in the direction the other pilots are flying, one plane going in the wrong direction can cause a mid-air collision. Call all take-offs and landings.

LANDINGS HAVE PRIORITY OVER TAKE-OFFS

Fly from designated flight areas, each area has a standing area. When working on one's plane have someone help you especially if you are working on it and it is plugged in. If those props hit your hands, it will be the end of your day – as you are going to the hospital. They can cut down to the bone. Don't fly into or over the pit areas. Drinking of alcoholic beverages is strictly prohibited. Your flying along with your driving are impaired. This is a huge safety concern. You don't want to hurt someone and you need to be thinking clearly. Remember these are not toys.

THE QUAD BOYS

You need to fly in the designated area, which is at the South side of the field, not exceeding Woodley Ave, the bike path, Burbank Blvd. bike path, and once again the Van Nuys Golf Course property. You can be cited by the authorities, I hear it can be pretty expensive, so why do it???? Everyone deserves to enjoy themselves. The last thing our height limit is **250 feet** with a South wind and **100 feet** with a North wind, try to abide by it. We don't need the Van Nuys Airport Police coming by. Let's fly safe, if there is a problem let the Safety Committee handle it.

REQUEST

People that get new memberships and are requesting flight training. Please contact Arthur Bolukbasi at trainingdirector@valleyflyers.com, so we can have a plane ready for you.

SAFETY

Quadcopters need to be flown in the Heli and field areas. I am observing FPV flight without a spotter, someone needs to be in the line of sight when these are flown. This is an FAA rule!! Too many times I ask, "Where is your quad?" The response I get is "I don't know." Remember **SAFETY FIRST**. Height limit is **250 feet** with a South wind and **100 feet** with a North wind, yielding for scale aircraft at all times. The height limit is for all aircraft reverse pattern situations. Watch out for all scale aircraft approaching Van Nuys Airport from the South for landings, they come in. lower than you are use to. PLEASE stay out of their airspace, whatever height they approach at.

BIG CAUTION - LANDINGS HAVE PRIORITY OVER TAKE - OFFS

HEIGHT RESTRICTIONS

We have been getting complaints about planes exceeding designated height limits of **250 feet**. Jets going vertical easily can exceed **250 feet**. In addition, 3D airplanes doing maneuvers also exceed these height restrictions. Rec & Parks have started enforcing, no assisted viewing while flying quads. We can only warn and post signs, under the Mayor's Amendment. If caught by law enforcement, they can arrest you and confiscate your equipment.

I don't want to see this happen to anyone. So at this time: NO Flying with goggles, viewing monitor screens, iPads anything but your natural eye. Do you get the CLEAR picture.

SAFETY is done by informing people of this information. We all want to have fun and enjoy the field, but the way its going, with exceeding the height limit, sooner or later we will face field closure. That will be a really sad day, when the 75 year old airfield gets closed due to people disregarding common sense safety guidelines, to not interfere with scale aircraft landing, flying over the golf course, flying to close to the people on the bike path, flying where you are not suppose to fly. Causing a major fatality auto accident. WE NEED TO FLY SMARTER & SAFER within our field area.

MEETING MINUTES

Board Meeting Notes

August 12, 2026

Attendees: Scott Ramos, Celeste Young-Ramos, Mario Sweet, Culley Bunker, Tony Aguila

Meeting started 6:30 pm

Treasurer Report -Tony Aguila

Club account \$3,062.94

Foundation account \$8774.40

Club Donations:

The team picked up a nice donation from the Gilbert Gfelner family. It included a P40, a Corsair and other kits. Tony will sell a couple on Ebay since we will be able to get more money than at the swap meets. Lower value items will be sold at the swap meet.

Cal State LA, UAS competition

They want to do it at the field this coming June, the 3rd through the 6th, which is Thursday, Friday, Saturday, Sunday. It should bring in between \$4,000 and \$5,000.

They sent over the paperwork that they had to go through with The Mojave Airport,. We need to go through that, make sure that that's all good to come up with a similar agreement. It was suggested to see if John Levon could review it.

SAE Competition

It will be back in April. It will probably generate \$7,000.

El Nino

There is potential for flooding. There was discussion to possibly get a storage unit where it does not flood in December to protect things that are lower to the ground we want to save.

MEETING MINUTES

Rodent Problem

There has been increased evidence of rodent activity in the training center. There was discussion that all food should be removed from the area and stored in thick airtight containers (Black and yellow). Also people are feeding the cat under the container and that is attracting them. Federico has been cleaning things out as well as other members. Food will be evaluated and moved. Also the BBQ grill must be cleaned after each event. Check the pallet of water bottles.

Assignments

Scott suggested having Tena follow up on the training insurance form with the Kids and Instructor AMA and finding volunteers for the runway repairs.

Posters

Scott requested posters for the next quarter's events from Culley. September 26th Try and Fly, October 10th LA Jets, October 24 LA 3D Helicopter, December 5th Toys for Tots. He is to send them to Tony for printing and Scott for posting on the website.

Field Maintenance

Tony has been working on removing a lot accumulated items in the storage containers. Table repairs continue with Scott and Culley. Two more to complete. There was discussion on repairing the cracks in the runaway and a repair day will be scheduled in August if weather permits.

Lost Plane

Scott's plan was accidentally left after the last event. A person at the field found it and claimed Scott gave it to him for free which is false. If anyone knows who this individual is, please contact Scott.

Damaged Training Plane

A person borrowed one of the training planes to teach his grandson and it was damaged. The person offered to pay for it. Tony will follow up.

MINUTES

Alarm System for Solar

It has been ordered and will be installed ASAP. Someone tried to access the Helicopter equipment.

Board Member Attendance

There was discussion on lack of Board member attendance. The same 5-6 show. Scott to contact the others who do not attend regularly. We are also looking for a replacement for Digital Marketing since Cliff Sonnentag is stepping down.

Container Clean Up

John Ellis will pick up the electronics.

Membership- Celeste Young-Ramos

We have about 210 members now. Twice a month membership are sent out. Everybody is up to date except the one Tony just sent me like yesterday. We have several that I am waiting on them getting their AMA.

Field Maintenance - Celeste Young-Ramos

The monthly cleaning day is continuing on the Third Friday of each month. There are usually 5 – 6 people that are helping. The next cleaning date will be September 18th. It starts at 8 am to 11 am. Areas needing more focus. Weed wacking and runaway cracks. It was approved for Celeste to contact Jaime, from Hjelte Park maintenance team to do the weedwacking. He uses our field for drones and was responsible for the grading of the drone field.

Glendale Field Maintenance

The Glendale Fire Marshall has contacted us to do some clearing at the field. Scott is going to organize with Bert and himself to take the mower over there to do the job before the deadline. We approved Bert to try to purchase a used riding lawn mower for \$1000.

Meeting ended 7:30 pm.

RADIO CONTROL FLIGHT RULES

APOLLO XI FIELD

1. All pilots must fly from one of the designated pilot stands.
2. The frequency board will be used at all times and pilots must post their frequency usage with a card or I.D. that contains their name or picture I.D.
3. Open flying is restricted during scheduled events.
4. No takeoffs and landings from the pit area, taxi-ways, or grass.
5. 250 feet maximum flying altitude for South Wind, 100 feet when there is a North Wind
6. Take-off and landings to be in the same direction according to the wind.
7. Down-wind passes over the runway are prohibited when other aircraft are flying.
8. Some sort of fuel recovery system must be used when fueling planes to avoid spillage.
9. All pilots will follow taxiways directions as posted.
10. Pilots will call out their intentions (landing, take- off, etc) and clear the runway quickly.
11. There shall be no flying during facility mowing operations
12. Flying over the Golf course, access roads or public roads is prohibited.
13. Each type of aircraft must fly and pit within the area designated on the map for that type of vehicle.

Fixed wing aircraft will have a standard left or right pattern depending on the wind. Failure to comply with these regulations may result in a citation, loss of flying privilege or both.

****Pilots please note, the Field is closed to open flying during all Valley Flyers Events. Pilots must check-in to participate. A valid VF Club membership and/or AMA membership is required.**
